

## This Simple To Use Kit Is As Easy As:

- 1** Load the dry wiper roll into the re-usable bucket.
- 2** Pour your chosen cleaning solution over the roll of wipers.
- 3** Thread the first wiper through the lid and close.

## You're Ready To Go!

- Easily add a wet wipe to your existing cleaning regimen, the kit utilizes whatever cleaning solution you already use.\*
- Control how saturated the wipes become based on your cleaner and application. **We recommend 64 oz of solution but encourage you to test performance with your chosen cleaner.**
- Reusable bucket has an airtight lid to keep your wipes saturated, avoid contamination and reduce staff exposure to the chemicals.
- Wipers easily absorb the cleaning solution while remaining durable to handle your daily cleaning needs.
- Each coreless roll pulls from the center – perfect for feeding wipers through the sanitizing kit bucket lid.
- Ideal for surface cleaning and sanitizing as well as removing soil, oil and grease.

\* Not recommended for bleach or alcohol-based solutions.
